## Cornerstone Ranch

EX  
L  
C  
P

Find us on Facebook!

Although Cornerstone Ranch was formally organized and named in 2000, that was not the beginning of the cattle herds. LaMoyne Peters came from a long line of cattle ranchers. His great grandmother and his grandmother both raised cattle in Lincoln County. When LaMoyne's father was orphaned at 13, he lost control of these cattle but maintained the Bar E X brand assigned to his grandmother around 1887.

Seed stock for the present commercial Hereford herd was bought in 1924 by LaMoyne and Gilbert Peters. In 1934 the first registered Hereford bull was bought. It was the Grand Champion bull at the Eastern New Mexico State Fair Open Livestock Show shown by Shaddock's of Carlsbad, NM. The price of this bull was equal to approximately the price of 12 calves. This was the beginning of selling bulls. Bull calves were sold from this bull locally for several years. Our standards for selecting herd sires have not changed.

The average cow on the ranch weights about 1200 lbs. The two registered herds provide the bulls for the commercial herd. Careful record keeping is used to provide accurate EPD on all registered cattle. Great bloodlines such as: Grand Slam, JC MO LE, L1 Pacesetter, SC Classic, L1 Image, HH Home Builder, LH Summit, as well as several Upstream Herefords and Churchill Cattle bulls have been used to build the Hereford cow genetics. We are excited to see the contributions of a Full Throttle son from Churchill Cattle and a Sensation son and Handshake son from Upstream Herefords to our herds. Conneally Freightliner, PAR Benchmark, TC Freedom, HC Faxline RightTime, QLC Structure, Lazy JB Watchout have contributed to the development of the Angus cow herd. Currently we are using Lazy JB O'Reilly and Uptown sons, as well as a Harvester son from SAV Angus and a Ten X son from 44 Farms.

A deep body, thick, large boned, well uddered cow is our goal. In our Hereford herd pigment around the eyes and on the scrotum are a must. A future goal is to extend this pigment to the cow's udders. Docility is extremely important to us and we strive to produce cattle that balance phenotypic traits and EPDs to meet the needs of the everyday cattleman. We feel our prefix for our cattle TRL portrays our goals –
